#### Коментары:

- \* аналог – это петля, по своим параметрам соответствующая указанную как „главная“. Может быть разница в форме и длине. „1“ значит BK 001, „2“ – BK 002...
- \*\* петли, указанные в скобках, не соответствуют стандарту ISO5422 при нагрузках под углом (проушины слишком длинные). Полная нагрузка возможна, если тянуть автомобиль по прямой.
- \*\*\* петли для VW *Golf u Vento* (производство 92-94 года) бывают двух типов: с левой нарезкой (номер 12) или с правой нарезкой (номер 49). **Polo** 91-94m – но. 50 левая, но. 120 правая. ОБЯЗАТЕЛЬНО ПРОВЕРЯТЬ !
- \*\*\*\* петли для автомобилей *Alfa Romeo – Fiat – Lancia* бывают двух типов: винчиваемые (номер 42) или завинчиваемые (с закруткой) (номер 52). ОБЯЗАТЕЛЬНО ПРОВЕРЯТЬ!
- \*\*\*\*\* петли для *Seat* (на одну и ту же самую модель автомобиля) встречаются двух типов: проушины номер 86 или проушины номер 14. ОБЯЗАТЕЛЬНО ПРОВЕРЯТЬ!
- \*\*\*\*\* Chrysler 300 C. Могут быть два варианта: Резьба 16 мм – BK 140 , Резьба 22мм – BK 117 .

Дата выпуска каталога – 2017.05

.....

## Explanations:

- \* **analogue** – towing hook , its parameters correspond to basic requirements. It is possible difference in its shape and length. „1“ it's mean BK 001, „2“ – BK 002 etc.
- \*\*the towing hooks, which have been mentioned in brackets, might not stand the asking strain of ISO5422 standard in case of dragging by angle, because of too long. The full working load is allowed in straight dragging only.
- \*\*\* 92-94 years produced cars **Golf and Vento** towing hook might have two kinds of threads: „left“ thread (No. 12) or „right“ thread (No. 49). **Polo** 91-94m – nr. 50, „left“ nr. 120 „right“ . IT IS NECESSARY TO CHECK IT !
- \*\*\*\* cars **Alfa Romeo – Fiat – Lancia** might use two kind of towing hooks: screw „in“ towing hooks (No.42) or screw „up“ towing hooks (No. 52). IT IS NECESSARY TO CHECK IT !
- \*\*\*\*\* cars **Seat** for the same model might be two towing hooks: towing hook No.86 or towing hook No. 14. IT IS NECESSARY TO CHECK IT !
- \*\*\*\*\* **Chrysler 300 C**. There may be two options: Thread 16mm – BK 140 , Thread 22mm – BK 117

05.2017

.....

.

## Wyjaśnienia:

- \*Analog – hak holowniczy, którego parametry są zgodne z podstawowymi wymaganiami. Możliwa różnica w kształcie i długości. „1“ = BK 001, „2“ = BK 002 ...
- \*\*Haki holownicze, wymienione w nawiasach, mogą nie spełniać, wymaganych przez 25rodukuo ISO422, obciążeń przy holowaniu pod kątem (zbyt duża ogólna długość). Pełne obciążenie jest dozwolone tylko przy holowaniu pojazdu po prostej.
- \*\*\*Haki holownicze dla **VW Golf i Vento** (rok 25rodukuoji lata 92-94) występują w dwóch typach: z lewym gwintem (numer 12) lub z prawym gwintem (numer 49). Polo 91-94r. 50 lewym, 120 prawym. KONIECZNE JEST SPRAWDZENIE!
- \*\*\*\*Haki holownicze dla samochodów **Alfa Romeo – Fiat – Lancia** występują w dwóch typach: do wkręcania (numer 42) lub zakręcania (numer 49). KONIECZNE JEST SPRAWDZENIE!
- \*\*\*\*\*Dla samochodu marki **Seat** mogą występować dwa haki holownicze: numer 86 lub numer 14. KONIECZNE JEST SPRAWDZENIE!
  - \*\*\*\*\* **Chrysler 300 C**. Mogą być dwie możliwości: 16mm gwint – BK 140 ,22mm gwint – BK117

2017.05

## Paiškinimai:

- \* **analogas** – kilpa, savo parametrais atitinkanti nurodomą pagrindinę. Gali skirtis forma ir ilgis. „1“ reiškia BK 001, „2“ – BK 002 ir tt..
- \*\* skliaustuose išvardintos kilpos gali neatlaikyti ISO5422 standarto reikalaujamų apkrovų, tempiant kampu (per ilgus!). Leidžiamas pilnas apkrovimas tempimui tiesiai.
- \*\*\* 92-94m **VW Golf ir Vento** kilpa gali turėti „kairinį“ (nr.12), arba „dešinį“ (nr.49) sriegį. **Polo** 91-94m – nr. 50 kairinis ir nr. 120 dešininis. TIKRINTI!
- \*\*\*\* **Alfa Romeo – Fiat – Lancia** automobiliams gali būti įsukamos (Nr. 42), arba užsukamos (nr. 52) kilpos. TIKRINTI!
